Heritage Victoria

A teacher’s guide to using Victoria’s Framework of Historical Themes
This presentation is to support professional learning of teachers. It introduces teachers to:

• Victoria’s Framework of Historical Themes and
• The way that teachers can use the Framework in the design of their teaching and learning programs.

Victoria’s Framework of Historical Themes (Link)
Links to professional Learning

The National Professional Standards for Teachers [http://www.teacherstandards.aitsl.edu.au](http://www.teacherstandards.aitsl.edu.au) provide a framework that makes explicit the knowledge, practice and professional engagement required across teachers’ careers.

To this end, teachers’ knowledge and use of the Victorian Framework of Historical Themes enables teachers to develop and demonstrate their professional knowledge and practice with particular reference to the standards:

**Professional Knowledge**
Standard 2: Know the content and how to teach it

**Professional Engagement**
Standard 6: Engage in Professional Learning
The Framework: Background

Why a Framework?
Heritage is at the heart of community identity. It is part of how we define ourselves and our place in the world.
The Framework’s purpose is to highlight what is distinctive about Victoria and to increase awareness and appreciation of the state’s heritage.

What is the Framework?
The Framework presents nine themes that express important processes and activities in the state’s historical development, culture and identity.
The Nine Themes

1. Shaping Victoria’s environment
2. Peopling Victoria’s places and landscapes
3. Connecting Victorians by transport and communication
4. Transforming the land
5. Building Victoria’s industries and workforce
6. Building towns, cities and the garden state
7. Building community life
8. Governing Victorians
9. Shaping cultural and creative life
How is the Framework useful to teachers?

History teachers help students appreciate how the world and its people have changed, as well as the significant continuities that exist to the present day. The Framework can help teachers achieve this aim by:

• Providing a tool **to help students understand** the many complex layers of Victoria’s history and how each of us is linked into past events and eras.

• Providing a tool **to clarify the significance of a place** through providing its historical context and linkages.

• Providing a framework that will **assist students with their interpretation, knowledge and understanding** of Victoria’s history and heritage.
The Framework and Inquiry Learning

• Using a thematic framework differs from traditional approaches to history as it allows a focus on key historical and cultural processes, rather than topics or a chronological treatment. It aims to identify the key human activities that have shaped our environment (Thom Blake, 1996).

• To this end, the Framework helps teachers consider ‘big questions’ which may form part of a much bigger inquiry for students to investigate.
**Historical Inquiry**

• Historical inquiry involves the retrieval, comprehension and interpretation of sources, and judgement guided by principles that are intrinsic to the discipline.

**Why is the Framework important for teachers to know?**

• The Framework of Historical Themes will assist teachers and students alike in framing their own questions of inquiry around Victoria’s heritage and history.
The Framework and Indigenous heritage and histories

- The Framework is the result of a close collaboration between the Victorian Aboriginal Heritage Council and the Heritage Council of Victoria.

- The histories and heritage of Indigenous peoples is integral, not separate from, the heritage and history of Victoria. It reminds us that every part of Victoria is the Traditional Country of a particular group of Aboriginal people.
The Framework and Indigenous heritage and histories

Why is this important for teachers and students?

• The Framework can assist teachers in covering Aboriginal and Torres Strait Islander heritage, histories and perspectives in their teaching and learning program.

• Aboriginal and Torres Strait Islander histories and cultures has been identified as one of the three cross-curriculum perspectives in the Australian Curriculum which will be introduced into states and territories from 2013.
Educational support resources

• Victoria’s Framework of Historical Themes

• Case Studies within the Framework

• “Lesson starters and activities” based around the Framework created by HTAV
The themes

Each theme is presented with:

• A rationale and explanation of theme;

• A set of questions that relate to the theme;

• A series of sub-themes and;

• Prompts and examples of places and objects that relate to each sub-theme.
Theme 1: Shaping Victoria’s Environment

This theme traces how our understanding and appreciation of the natural environment have changed over time.
Theme 1: Shaping Victoria’s Environment

Teachers and students might consider the following questions to frame or construct their inquiry:

**Asking questions about the theme**
— What naturally occurring features and environments define Victoria’s landscapes, localities and regions?
— How has the environment influenced human life and cultures?
— What impacts have humans had on the landscape and environment? Have these impacts had implications beyond Victoria’s localities and regions? Were they deliberate or the unintended consequence of human activity? (This is also explored in theme 4.)
— What were the driving forces that resulted in some areas being reserved from exploitation or development?
— What efforts have been made to protect places of natural value? And by whom?
— How strong are the connections between Victorians and their natural landscape?
— How does the environment theme link with other themes in Victoria’s history?
Theme 1: Shaping Victoria’s Environment

Answering the questions
Teachers may choose to teach the principles of this theme (how our understanding and appreciation of the natural environment have changed over time) by using the questions and focusing on one or more of the sub-themes presented.

Sub-Themes for Shaping Victoria’s Environment are:
1. Tracing climactic and topographic change
2. Tracing the emergence of Victorian plants and animals
3. Understanding scientifically diverse environments
4. Creation stories and defining country
5. Living with natural processes
6. Appreciating and protecting Victoria’s natural wonders

Example Case Study – The Missing Apostles
Many heritage sites develop organically rather then being built by humans. A good example of this is the Twelve Apostles, several stacks of rock which dot the coast in the Southern Ocean within the Port Campbell National Park. They are made of limestone and their shape is the result of erosion from the cliffs which began 10–20 million years ago. As time has passed, some of the formations have collapsed into the sea.

</table>
This theme examines Victoria’s people and landscapes. It considers the Aboriginal people who have occupied Victoria over many thousands of years, and their encounters with later arrivals and the migration of peoples in successive waves.
Theme 2: Peopling Victoria’s places and landscapes

Teachers and students might consider the following questions to frame or construct their inquiry:

**Asking questions about the theme**
— How did Aboriginal people live in the area now called Victoria?
— What factors have prompted people to migrate to Victoria and within Victoria?
— How did people get to, and move throughout, Victoria?
— Why have people chosen particular places in which to settle?
— What motivated public and private settlement schemes? How effective were they?
— What impacts have immigrants, both individuals and groups, had on the places and landscapes of Victoria?
— How have people maintained their traditional cultures within the dominant society?
— How does the theme link with other themes in Victoria’s history?
Theme 2: Peopling Victoria’s places and landscapes

Answering the questions
Teachers may choose to teach the principles of this theme (examination of Victoria’s people and landscapes) by using the questions and focusing on one or more of the sub-themes presented.

Sub-Themes for the theme of Peopling Victoria’s places and environment are:

1. Living as Victoria’s original inhabitants
2. Exploring, surveying, mapping
3. Adapting to diverse environments
4. Arriving in a new land
5. Migrating and making a home
6. Maintaining distinctive cultures
7. Promoting settlement
8. Fighting for identity

Example Case Study – Mapping Victoria
In 1837, Robert Hoddle began the process of planning out the city of Melbourne in blocks of streets, which is now known as ‘Hoddle’s Grid’. So caught up was he in a grand plan for a continuously expanding city, that Hoddle ignored the already-standing structures such as people’s houses and the fact that the areas he had marked out as streets often flooded!

</tbody>
</table>
This theme examines the development of transport and communication in Victoria. It considers matters such as the role Indigenous tracks played in the early years of European settlement of the area, the influence transportation and communication routes had upon shaping patterns of settlement and how technological development in transport and communications has had an impact on Victoria today.
Theme 3: Connecting Victorians by transport and communications

Teachers and students might consider the following questions to frame or construct their inquiry:

**Asking questions about the theme**

— How did environmental factors influence routes chosen?
— What was the impetus for establishing travel routes? Why were particular routes chosen over others?
— Which tracks have developed into major routes? What was the process?
— What were the social or economic outcomes of establishing pathways?
— How is the change from horse-drawn to motor transport shown in the landscape?
— How was the transition from colonial to Commonwealth communication services shown?
— How was the work associated with travel and communications allocated – between social and ethnic groups, between sexes?
— How did the workers organise themselves to improve conditions, wages? What outcomes were achieved?
— What technology was used, adapted or invented?
— How does the theme link with other themes in Victoria’s history?
Theme 3: Connecting Victorians by transport and communications

Answering the questions
Teachers may choose to teach the principles of this theme (examination of transport and communication) by using the questions and focusing on one or more of the sub-themes presented.

Sub-Themes for the theme of connecting Victoria by transport and communications are:
1. Establishing pathways
2. Linking Victorians by water
3. Linking Victorians by rail
4. Linking Victorians by road in the 20th century
5. Travelling by tram
6. Linking Victorians by air
7. Establishing and maintaining communications

Example Case Study – Connecting Victoria by Railway
Indigenous Australians didn’t travel by car, train, plane or tram. Canoeing down the Yarra River was a major source of travel, as was walking. The word ‘Yarra’ is thought to be an Indigenous word meaning ‘ever flowing’. The Aboriginal name for the Yarra River is ‘Birrarung’. In 1837, Governor Bourke wrote of the Yarra that it “abounds in fine fish and the water is of very good quality”. Today, the Yarra River is often referred to as ‘the river that flows upside down’.

Theme 4: Transforming and managing land and natural resources

This theme explores how occupation and use of the land, and exploitation of its natural resources, have transformed Victoria and shaped its diverse cultural landscapes.
Theme 4: Transforming and managing land and natural resources

Teachers and students might consider the following questions to frame or construct their inquiry:

**Asking questions about the theme**
— How was the land occupied and used?
— What is the evidence of the succession of land uses in wider landscape?
— How were Aboriginal people dispossessed of their land and its resources?
— What were the living conditions associated with particular land uses?
— What measures were taken to make ‘strange’ or remote landscapes seem more like ‘home’?
— How was work allocated – between social and ethnic groups, between sexes, use of seasonal/itinerant labour?
— Is there evidence of this in stories about the place, or embodied in the landscape?
— How have different land uses over a long period affected natural features, landscape character and values?
— How does this theme link with other themes in Victoria’s history?
Theme 4: Transforming and managing land and natural resources

Answering the questions
Teachers may choose to teach the principles of this theme (examination of land and natural resources) by using the questions and focusing on one or more of the sub-themes presented.

Sub-Themes for the theme of connecting Victoria by transforming the land and natural resources are:

1. Living off the land
2. Living from the sea
3. Grazing and raising stock
4. Farming
5. Gold mining
6. Exploiting other mineral, forest and water resources
7. Transforming the land and waterways

Example Case Study – Discovery of Gold
Victoria became a major attraction for miners in 1851 with the discovery of gold in areas such as Bendigo and Ballarat. Today, the most commonly mined material is brown coal, a mineral found predominantly in the La Trobe Valley in Gippsland. Brown coal is used to produce energy, but is also exported to areas such as Asia.

Theme 5: Building Victoria’s industry and workforce

This theme explores the way Victoria’s industry and workforce has developed.
Theme 5: Building Victoria’s industry and workforce

Teachers and students might consider the following questions to frame or construct their inquiry:

**Asking questions about the theme**

— What contribution has Victorian industry made to national, state and local economies?
— What has been the effect of industrial development on particular towns, suburbs and landscapes?
— How important were entrepreneurial and business skills? Technical innovations?
— How was work allocated – between social and ethnic groups, between sexes?
— How did workers organise to improve conditions? What about those outside such organisations?
— What were the living conditions like? Was accommodation provided?
— How does this theme link with the other themes in Victoria’s history?
Theme 5: Building Victoria’s industry and workforce

Answering the questions
Teachers may choose to teach the principles of this theme (Building Victoria’s industry and workforce) by using the questions and focusing on one or more of the sub-themes presented.

Sub-Themes for the theme of Building Victoria’s industry and workforce are:
1. Processing raw materials
2. Developing a manufacturing capacity
3. Markets and retailing
4. Exhibiting Victoria’s innovation and products
5. Banking and finance
6. Entertaining and socialising
7. Catering for tourists
8. Working

Example Case Study – Tourism in Victoria
The tourism industry is a booming one in Victoria as there are so many things for interstate and overseas visitors to see and do. Encouraging people to visit Victoria is good for the local economy, particularly in small towns. The variety of sites to see include galleries, parks, forests, shops, beaches, rivers, landmarks and festivals.

<tr>
<td>9</td>
<td>History</td>
<td>The technological innovations that led to the Industrial Revolution, and other conditions that influenced the industrialisation of Britain (the agricultural revolution, access to raw materials, wealthy middle class, cheap labour, transport system, and expanding empire) and of Australia.</td>
</tr>
</tbody>
</table>
Theme 6: Building towns, cities and the garden state

This theme covers the development of gold rush cities and agricultural service centres, as well as the emergence of Melbourne as a world leader in suburban development and the expression of this in the range and variety of Melbourne’s suburbs. Victoria’s areas of ethnic and cultural diversity, and the distinctive heritage of our country towns, are also important under this theme.
Theme 6: Building towns, cities and the garden state

Teachers and students might consider the following questions to frame or construct their inquiry:

**Asking questions about the theme**

— What were the motivations for establishing towns and suburbs?
— How were they affected by changing circumstances?
— What influenced the spatial layout of the town/suburb – location of industry, residence areas etc.?
— What does the housing show about the local topography, climate, social status, and cultural background of the residents?
— What were the social implications of different forms of housing?
— How have segregation and exclusion been expressed in housing and suburbs?
— How is the history of a city/town/suburb reflected in its architecture, materials and landscapes?
— How is public open space used by various groups?
— How does this theme link with the other themes in Victoria’s history?
**Theme 6: Building towns, cities and the garden state**

**Answering the questions**
Teachers may choose to teach the principles of this theme (Building towns, cities and the garden state) by using the questions and focusing on one or more of the sub-themes presented.

**Sub-Themes** for the theme of building towns, cities and the garden state are:
1. Establishing Melbourne Town, Port Phillip District
2. Creating Melbourne
3. Shaping the suburbs
4. Making regional centres
5. Living in country towns
6. Marking significant phases in development of Victoria’s settlements, towns and cities
7. Making homes for Victorians
8. Living on the fringes

**Example Case Study – Victoria: The Garden State**
Victoria has many notable gardens and was once known as ‘The Garden State’, a slogan which was printed on car number plates. One of the most beautiful public gardens is the Royal Botanic Gardens in Melbourne which was designed by Ferdinand Von Muller, a German immigrant. He was responsible for introducing a many new species of plants to Victoria, but also sent specimens of the Eucalyptus tree known as ‘Blue Gum’ all over the world.

Theme 7: Governing Victorians

This theme covers the phases of government in Victoria’s history, as well as the varied heritage associated with defence, law and order and local government. It features the role Victoria played as a centre for reform campaigns, including reform of Aboriginal policies in the 20th century.
Theme 7: Governing Victorians

Teachers and students might consider the following questions to frame or construct their inquiry:

**Asking questions about the theme**

— How did the state shape the lives of Victorian citizens?
— What evidence remains of different eras and circumstances?
— What has been the role of local government?
— What groups have been disadvantaged by or left out of the political process? Why?
— What efforts have been made to include them? How have they succeeded?
— What has been the impact of dissenting ideologies on Victoria?
— What do Victoria’s political and administrative institutions tell us about the nature of society in Victoria?
— What has been the role of Victorians in Australia’s Federal political process?
— How does this theme link to other themes in Victoria’s history?
Theme 7: Governing Victorians

Answering the questions
Teachers may choose to teach the principles of this theme (Governing Victorians) by using the questions and focusing on one or more of the sub-themes presented.

Sub-Themes for the theme of Governing Victorians are:
1. Developing institutions of self-government and democracy
2. Struggling for political rights
3. Maintaining law and order
4. Defending Victoria and Australia
5. Protecting Victoria’s heritage

Example Case Study – The Canine War
In the 1840s there was a problem with savage dogs in Melbourne which put the residents in danger of being attacked and injured. This led to the first ‘Dog Act’ in Melbourne. In has been claimed that this Act led to an understanding that police officers were allowed to kill unregistered dogs and were paid half a crown for every dog they killed. In order to prove that they had disposed of the dog, they were required to bring the tail to the Police Revenue Office. Due to the cash incentive Police allegedly began sneaking into yards and killing people’s pet dogs in order to obtain a tail and consequently their payment!

Theme 8: Building community life

This theme highlights the role of churches, schools, hospitals and community halls in transferring old-world belief systems, ideals and institutions to the new colonial offshoot. This includes the range and influence of women’s organisations, and Victoria’s pioneering role in providing for women’s secondary school education.
Theme 8: Building community life

Teachers and students might consider the following questions to frame or construct their inquiry:

**Asking questions about the theme**
— How much do we know about Aboriginal ceremonial life and sacred places in Victoria? How do we know about these?
— What churches predominated in the town/suburb/community? Why?
— How do the schools in the town/suburb reflect the social/religious background, and aspirations of the community?
— How have community institutions expressed community values of the times? The needs of the times?
— How have gender roles been expressed in community life?
— How has the community contributed to the provision of welfare services?
— What has been the impact of increased government services on community life?
— How does this theme link with other themes?
Theme 8: Building community life

Answering the questions
Teachers may choose to teach the principles of this theme (Building community life) by using the questions and focusing on one or more of the sub-themes presented.

Sub-Themes for the theme of building community life are:
1. Maintaining spiritual life
2. Educating people
3. Providing health and welfare services
4. Forming community organisations
5. Preserving traditions and commemorating
6. Marking the phases of life

Example Case Study – Commemoration
Remembrance and memorials mark towns all over Victoria. The largest is the Shrine of Remembrance on St Kilda Rd in Melbourne. It was built in 1934 to commemorate all who fought in WW1, then known as ‘The Great War’. There are many types of markers which surround the memorial to recognise the diversity of participation in WW1. There is even a trough-shaped cenotaph to recognise war horses. While the Shrine is architecturally impressive, there are many simpler monuments such as plaques and trees around Victoria which also tell the stories of lives lost in subsequent conflicts.

Theme 9: Shaping cultural and creative life

This theme covers the rich legacy of places and strong interconnecting creative culture, supported locally, which is highly valued by the community as part of its history and identity. Victoria’s cultural life in its many facets: sport, arts, popular culture and science.
Theme 9: Shaping cultural and creative life

Teachers and students might consider the following questions to frame or construct their inquiry:

**Asking questions about the theme**
- How have people enjoyed their leisure, developed leisure facilities?
- What does the establishment/development of local sporting clubs tell us about the town/suburban community?
- How does sport express local allegiance, social status or ethnicity?
- How have people contributed to Victoria’s/Australia’s elite sporting life?
- How/when does a local community event evolve into a major expression of the creativity of Victorians?
- What art forms have been expressed/developed in the local town/suburb? What has inspired and enabled the formation of a local arts community? Have any local artists made their name on the wider stage?
- What influential people have provided inspiration/financial support to the arts, or other intellectual pursuits? What has motivated them?
- What contribution has the particular art-form/popular culture made to Victoria’s/Australia’s identity?
Theme 9: Shaping cultural and creative life

Asking questions about the theme continued

— How have people contributed to Victoria’s/Australia’s elite and unique art and creative culture/popular culture?
— What has been the inspiration for innovation in science?
— How have people contributed to Victoria’s/Australia’s intellectual and scientific achievements?
— How do the themes overlap within this key theme? How do they link with other key themes?
Theme 9: Shaping cultural and creative life

Answering the questions
Teachers may choose to teach the principles of this theme (Shaping cultural and creative life) by using the questions and focusing on one or more of the sub themes presented.

Sub Themes for the theme of building community life are:
1. Participating in sport and recreation
2. Nurturing a vibrant arts scene
3. Achieving distinction in the arts
4. Creating popular culture
5. Advancing knowledge

Example Case Study – Commemoration
Dame Nellie Melba was born in Richmond, Victoria in 1861 and rose to fame as a popular opera singer. She was especially acclaimed for her roles in ‘Faust’, ‘La Boheme’ and Aida. After performing extensively in Europe, she built her home ‘Coombe Cottage’ near Lilydale. Many buildings and products are named after her including a singing conservatorium, a kindergarten and a desert called ‘Peach Melba’.

Using the Framework to plan your teaching and learning program

**Education Activities/Lesson Starters**

• The educational activities, [link to resource](http://www.htav.org) developed by HTAV, demonstrate how diverse elements of Victoria’s heritage can be used as a basis for teaching and learning programs for history.
Using the Framework to plan your teaching and learning program

Education Activities/Lesson Starters

Up to three case studies have been chosen for each theme. The case studies have been chosen for their points of interest, ability to engage students’ interests and their connection to the theme.
Using the Framework to plan your teaching and learning program

Education Activities/Lesson Starters
Teachers may use the case studies as a stimulus for discussion, using the relevant questions that relate to each theme. The activities that have been created relate to the particular case studies and themes that they represent.
Using the Framework to plan your teaching and learning program

Using the Framework to help plan an inquiry
Use the themes, sub-themes and key questions to help shape an inquiry.
Once completed, the teacher has a vast array of inquiry questions that have been created by the use of the Framework.
